Orthodontics	N/A	50% For patients of any age

Additional Dental Benefits

MAXIMUM BONUS ACCOUNT (MBA) BENEFITS

Administered by Delta Dental

Employees enrolled in the Enhanced Plan for dental coverage and their dependents are eligible for Maximum Bonus Account (MBA) benefits. With MBA benefits, each covered person who qualifies will receive \$250 per plan year to pay for dental care. Employees can accumulate up to the \$2,000 in their MBA account.

Here's what else you need to know about MBA benefits:

- You must be enrolled in the Enhanced Plan for one plan year before you can earn MBA benefits.
- ► Your MBA account balance rolls over from year to year.
- You, your spouse, and your dependents will each have their own account. MBA benefits cannot be shared.
- ► MBA benefits cannot be used for orthodontic claims.
- You will lose your account balance if you move from the Enhanced Plan to the Base Plan, or if you have a break in coverage.

Questions about MBA benefits? Call Delta Dental at 1.877.841.1478, or visit https://southdakota.deltadental.com/shop-dental-plans/features-and-options/maximum-bonus-account/.

PREVENTION PAYS

Administered by Delta Dental

The Prevention Pays feature exempts preventive care and some gum disease (periodontal) services from the calculation of the plan's annual maximum benefit. That means preventive services like exams, x-rays, and periodontal maintenance cleanings are covered even when the plan's annual maximum benefit has been reached. It also means more benefits are available to help pay for treatment procedures like cavity fillings, crowns, and root canals.

HEALTH THROUGH ORAL WELLNESS®

Administered by Delta Dental

Health *through* Oral Wellness is a unique program that adds benefits to your dental plan based on your oral health needs. There is no need to enroll, and it is provided at no cost to you. A Delta Dental network dentist trained in Health *through* Oral Wellness will assess your risk for tooth decay and periodontal disease during a regular preventive visit. Depending on your level of risk, your dentist will recommend additional benefits you are eligible for, including additional cleanings, fluoride treatments, sealants, and oral hygiene instruction.

Also, if you have any of the following health conditions, you are eligible for additional benefits:

- Pregnancy: One additional cleaning during your pregnancy
- Diabetes: Two additional cleanings
- ► High-risk cardiac care: Two additional cleanings
- Kidney failure or dialysis: Two additional cleanings
- ▶ Rheumatoid arthritis: Two additional cleanings
- Stroke: Two additional cleanings
- Cancer-related chemotherapy or radiation: Two additional cleanings and two applications of fluoride
- Suppressed immune system: Two additional cleanings and two applications of fluoride

Learn more: https://southdakota.deltadental.com/shop-dentalplans/features-and-options/health-through-oral-wellness/.

*Cleanings may be either a general cleaning (prophylaxis) or a periodontal maintenance cleaning, depending on your dentist's recommendation.

To qualify for MBA benefits, you must:

- 1. Enroll in the Enhanced Plan for at least one year before earning benefits.
- 2. File at least one non-orthodontic claim during the plan year.
- 3. Use less than \$1,000 (half of your annual maximum benefit) for the plan year.
